

API Update: Payment Request Enhancements for Project & Sponsorship Modules

API Title:
Get Payment Status

Method:
GET

Endpoint:
`/api/sponsorship/getpaymentstatus`

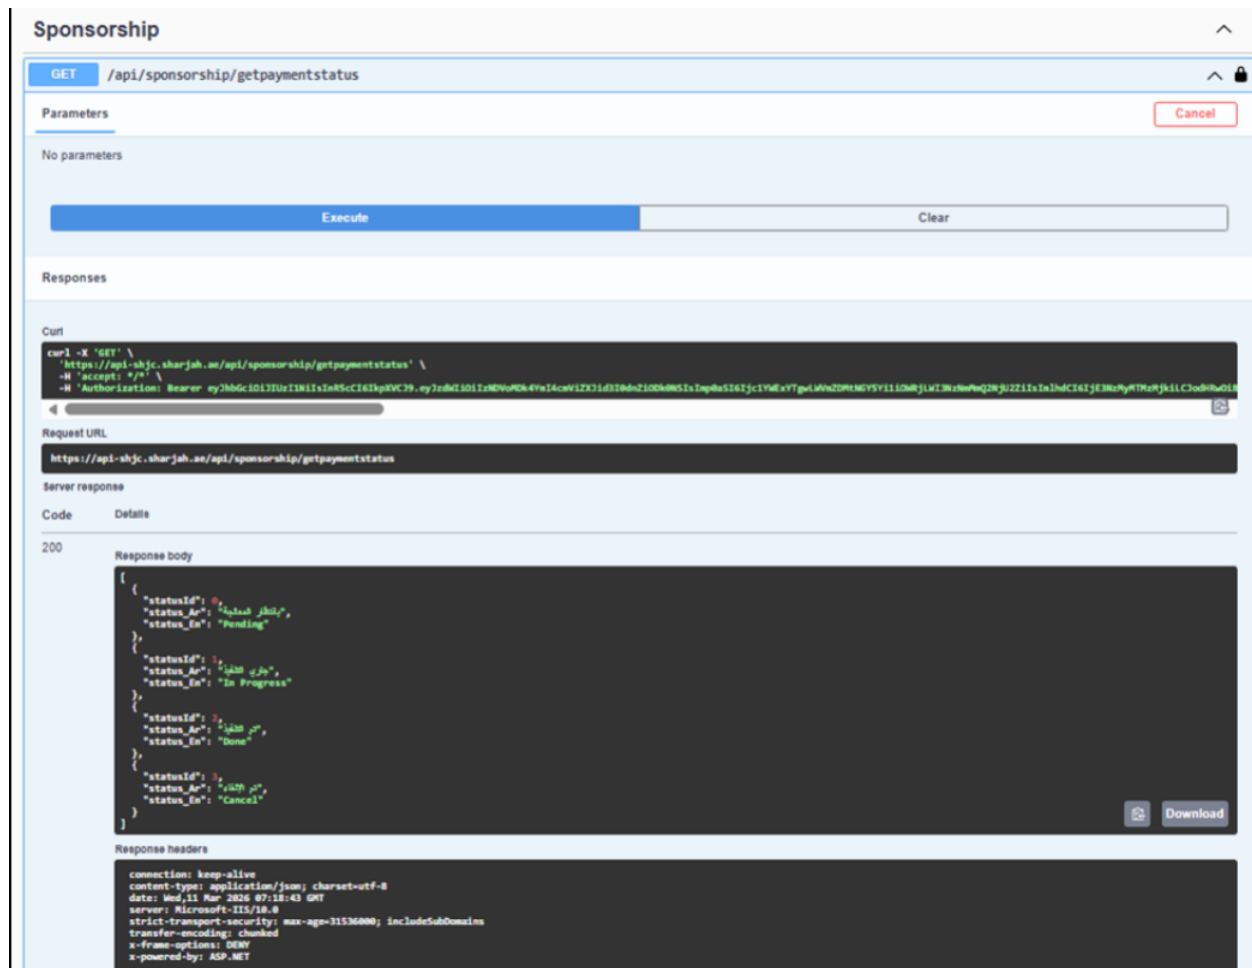

Description:
This API retrieves the list of all available payment statuses used in the Sponsorship module. It returns the status ID along with the status name in both Arabic and English.

API Testing Summary:
The API was successfully tested and returned **HTTP 200 OK** with a valid JSON response. All expected payment statuses were retrieved correctly.

Returned Status Values:

- **Pending** – Payment is waiting for processing.
- **In Progress** – Payment processing is currently ongoing.
- **Done** – Payment has been successfully completed.
- **Cancel** – Payment has been cancelled.

Result:
API is functioning correctly and returns all payment status values required for system workflows and status tracking.

API Title:
Get Sponsorship Payment

Method:
GET

Endpoint:
/api/sponsorship/getsponsorshippayment

Description:
This API retrieves detailed information about sponsorship payment requests, including payment status, organization details, payment dates, total amount, and related transaction information.

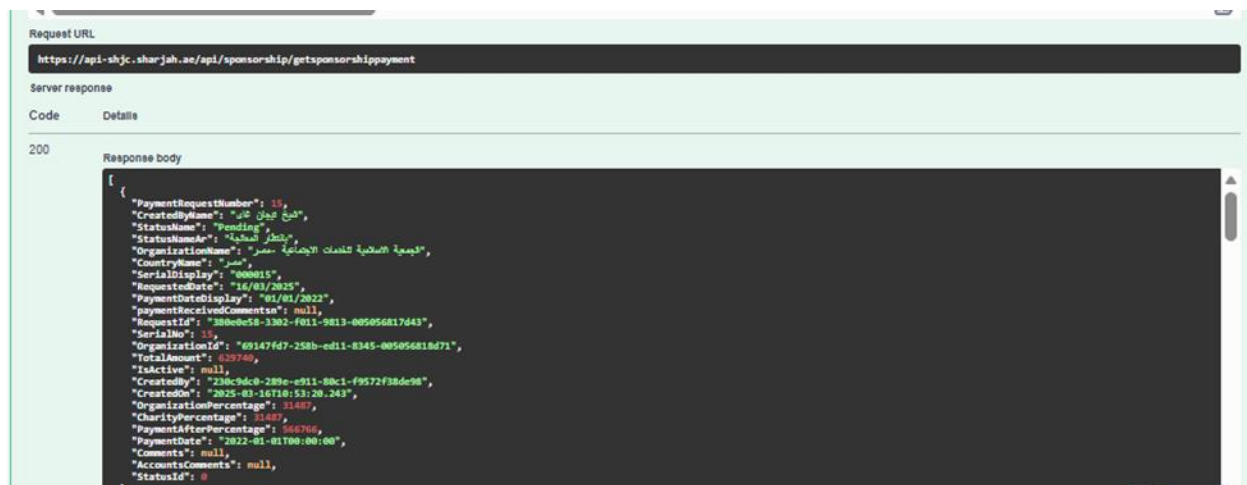

API Testing Summary:
The API was successfully tested and returned **HTTP 200 OK** with a valid JSON response containing sponsorship payment records and all associated details.

Key Data Returned:

- **PaymentRequestNumber** – Unique identifier for the payment request
- **StatusName** – Current payment status (e.g., Pending)
- **OrganizationName** – Name of the sponsoring organization
- **CountryName** – Country related to the payment request
- **Serial Display** – Serial reference number
- **Requested Date / PaymentDateDisplay** – Payment request and processing dates
- **Total Amount** – Total payment amount
- **CharityInterPercentage** – Charity share percentage
- **Donor Percentage** – Donor share percentage

Result:

API is functioning correctly and returns complete sponsorship payment details required for payment tracking and reporting.

API Title:
